#### **Deck Permit Submittal Documents**

#### **Required Documents:**

- 1. Building Permit Application
- 2. Deck Plan Details (separate document, part of required submittals)
- 3. Building Plans
- 4. Site Plan

**NOTE:** All permit application documents should be turned in at the same time, otherwise partial submittals can often cause delays in the plan review process.

**Building Permit Application:** Describe proposed work, site location, contractor and owner contact information, contractor state license number, valuation estimate, signature and date.

**Deck Plan Details Form:** Fill out completely as part of the submittal package.

**Building Plans:** Show in detail the extent of proposed work to include locations of posts, footings, beams, stairs, house cantilever if used and direction of floor joists.

**Site Plan:** Show 1) how deck is oriented and attached to house, 2) distances to side and rear lot lines, septic tanks and drain field.

License Requirements: Applicants must be property owner or Licensed Contractor.

**State Building Code Information:** The MN State Residential Code that regulates the construction of decks can be viewed on the Department of Labor and Industry web site.

## **Deck Plan Details**

Fill in the blanks

Deck Width	Joist Length
Beam Size	
Post Size	Joist Spacing
Post Spacing	Number of Posts
Joist Cantilever  Height  Footing Diameter  Bottom Diameter	House  Grade

APPLICATION CHECKLIST:				
Address				
Yes	No			
		1. Is a future porch being considered?		
		2. Will there be a hot tub or spa on the deck?		
		3. Is deck attached to a house cantilever? If yes, provide special design.		
		4. Is a guardrail required (over 30 inches above grade)?		
		5. Is a handrail required on the stairs (4 or more risers)?		
		6. Does deck site plan show distance to property lines and buildings?		
		7. Using composite deck materials? If yes, identify		

## Site Plan

### Frequently Asked Questions

### What is the purpose of a site plan?

To determine if the addition of a proposed new structure or modification of an existing structure will comply with local zoning regulations. Exterior projects require a zoning review. The site plan can be on an existing survey or proportional hand drawn sketch.

### What is the purpose of a zoning review?

To ensure the application and supporting documents describing the proposed work will comply with zoning regulations for property line setbacks and the number, type, size, location and use of all buildings. A zoning review is the first step in the permit application review process.

### What kind of information is required on a site plan?

A certificate of survey or "to scale" site plan is preferred and, in some cases, may be required. Depending on the type of permit applied for, a site plan may be hand drawn or digitally sketched on an aerial photo if the following items are proportionately shown on the site plan:

- 1. Lot dimensions identified and distances of structures and accessory buildings to property lines and other structures.
- 2. Location, type and size of **all** existing structures and buildings on the property.
- 3. Proposed location, type and size of new structures built or moved on the property.
- 4. Location and dimensions of existing driveway and any other impervious surfaces, including sidewalks, asphalt, class-5 gravel areas, etc.
- 5. Location of utility easements or wetlands, and distance of proposed structures from said easements and or wetlands.
- 6. Location of septic tanks, drain field, *alternate drain field site* and well with the distances of these to the closest structures, impervious surfaces and/or property lines.

**Note:** Site plans with all required information ensure a faster review.
